Postcard

Choose a partner who researched a different explorer than you. Write a postcard to your partner's person from the point of view of your person. Be sure to depict a real event or action from your explorer's voyage. Cut out the postcard, and decorate the back with a scene from your explorer's voyage.

The postcard template consists of a large outer rectangle. In the top-left corner, there is a smaller square with a scalloped border, intended for a postage stamp. In the center-right area, there are three vertical lines. At the bottom, there is a horizontal line. The rest of the box is blank for writing and drawing.
